

Five Buildings Damaged By Fire

On Wednesday last an accidental fire broke out in Warminster, which at first threatened to be very destructive, but through the intrepid exertions of the firemen, under the judicious direction of Mr. John Daniell, and the prompt assistance of the inhabitants of all ranks, aided by a good supply of water, the damage was chiefly confined to five dwellings, all of which were insured. As the fire fortunately occurred in the day, no lives were lost, and opportunity was afforded for removing a considerable part of the furniture, which was uninsured, and belonged to the tenants, some of whom were both poor and aged, and for whose relief, with the benevolence which characterizes the inhabitants of Warminster, measures were immediately adopted.
